How Title IX Protects You!

Title IX has banned sex discrimination in schools since **1972**.

It's best known for **breaking down barriers in sports** for women and girls.

It also **opens the door** for girls to pursue **math and science**.

It **requires fair treatment** for pregnant and parenting students.

It protects students from **bullying and sexual harassment**. And it does much more.

We salute Title IX's victories and embrace
the work ahead to realize its full promise.
